# KY FAME - Metalsa

# Why KY FAME?

- **Current and projected severe shortage of robotics/skilled trades type employees.**
- **We anticipate that KY FAME student will come out with clear understanding of potential workplace and expectations.**
- **Company comes out with a clear working knowledge of KY FAME student.**
- **At the end of 2 years, both agree that it's a good marriage or the student can use the experience to obtain good position at another company.**
- **Win-Win!!!**

## Possible Positions

**Controls Technicians:** Assist with installation and programming of machinery/robots. Assist Skilled Trades with troubleshooting, diagnostics or repairs on automated equipment. Help reduce downtime. Help develop and implement process improvements. Help plan and manage projects.

**Machine Repair Technician:** Install, repair and maintain machinery and systems, including; metal stamping, forming, welding, pneumatics, conveyors, robotics, electrical, and material handling systems.

**Tool and Die Maker:** Build and repair metal tooling components and fixtures utilizing manual tool skills with lathes, surface grinders and end mills.

## Possible Positions

**Robotic Technician:** Perform set-up, adjustment and preventive maintenance of Robots. Employees must be mechanically inclined. Related experience in a manufacturing environment or Robotics training from an accredited program is highly preferred.

## Responsibilities

### Currently: Shadowing our MRT's (Skilled Trades)

- **Assist MRT's – 65%**
- **PM's – 15%**
- **Oil and Chiller Water Check and Fills – 10%**
- **Miscellaneous – 10%**

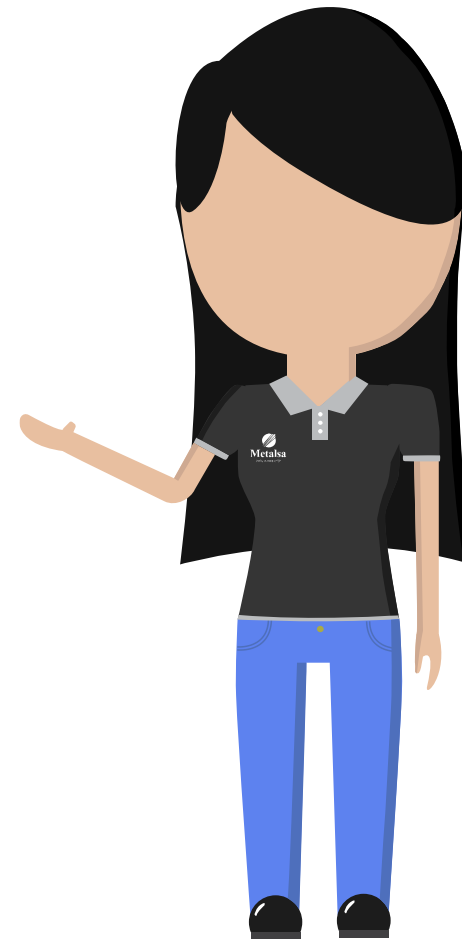

## Responsibilities

### Future:

- **Continue working with MRT's (Skilled Trades)**
- **FANUC Training and begin working with Control Engineers**
- **Hire permanently as a Metalsa employee if a good fit for both!**
